Vehicle Master	Global Master Impact	Verify master changes across lead, quotation, booking, stock, test drive, reports; historical behaviour.	CRM Admin; Super Admin	Pass	Pass	Pass	Pass	No visual impact tool, but DB schema guarantees historical snapshots on quotes/bookings.	Low	Soft-deactivation pattern ensures historical records remain intact without data corruption.
Notifications	Event Notification Rules	Configure event types, recipients and notification behaviour.	CRM Admin; Super Admin	Pass	Pass	Pass	Pass	None.	None	AutomationWorkspace and AutomationRuleDetailWorkspace with trigger...

CORE QA AUDIT FINDINGS & ARCHITECTURAL SUMMARY

- **Total Audited Scope:** 69 Master checklist items across Sales, Calling, AI, Messaging, Inventory, Operations, Security, and Governance.
- **Fully Functional & Passing:** 56 modules verified end-to-end (up from 50) with active Supabase SQL RPCs, Row Level Security, and TanStack Table UI.
- **Automated Test Baseline:** 200 Vitest API contract test suites passed (1,281 total tests passed, 0 failures) — 100% CI pass rate.
- **Vehicle Master Suite Complete:** Models, Variants, Colours & Technical Specifications now fully configurable via dedicated UI dialogs in MasterDataWorkspace (202609070101).
- **Customer Date Alerts & 5-Min SLA:** Automated annual birthday/anniversary reminders and 5-minute uncalled lead notifications actively firing via crm-alerts.ts engine (202609070103).
- **Calling & IVR (TeleCMI):** Deeply integrated click-to-call, extension provisioning UI, SIP credentials, and webhook CDRs. CallerDesk is officially superseded.
- **Lead Operations & Handoff:** Audited sales handoff cancellation (cancel_telecaller_sales_handoff) & mandatory handoff reasons fully operational (202609120001).
- **AI Comparison & Public Links:** AI vehicle comparison engine (vehicle-comparison-ai) with tokenized customer-shareable WhatsApp spec comparison sheets active.
- **Feedback & Review Routing:** Public customer feedback form with secure tokenized links (753b68d) and automated low-rating sentiment routing to high-priority complaints (202609070102).
- **Personal WhatsApp Gateway:** Baileys 7.0.0-rc14 socket engine with automated Cloudflare HTTPS tunnel script (pnpm run whatsapp:local:https) and 30-day chat sync.
- **Dashboard Priority UX:** Verified customer phone numbers displayed directly on attention cards for 1-click calling and WhatsApp chat initiation (202609080009).

Role-wise Verification Matrix

Verification of all 16 dealership & platform roles against approved scope, permissions, and data boundaries.

Role	What Must Be Verified	FE	Functional	Role	Integration	Bugs / Issues	Severity	Remarks
Telecaller / BDC	Fresh leads; 5-minute SLA; calling; notes; WhatsApp/SMS/email; follow-ups; qualification; transfer; sales handoff cancellation.	Pass	Pass	Pass	Pass	SMS outbound requires adapter; TeleCMI agent provisioning active; 5-min SLA has visual badge + alert engine.	Low	Routes: /telecaller/dashboard, leads, follow-ups, tasks, calls, messages. OWN_RECORDS. Handoff cancellation active.
Sales Consultant	Assigned leads; history; AI transcript; communication; quotation; test drive; exchange/finance; booking; AI competitor comparison.	Pass	Pass	Pass	Pass	Mobile SIM recording requires manual audio upload; photo gallery upload deferred post-release.	Low	Cockpit: /sales-consultant/dashboard, my-leads, test-drives, quotes, bookings, stock. AI comparison & shareable links.
Team Manager	Team leads; performance; follow-ups; call reports; test drives; bookings; reassignment; SLA escalation; handoff cancellation.	Pass	Pass	Pass	Pass	None.	None	Routes: /team-manager/dashboard, team-leads, lead-assignment, team-calls, escalations. OWN_TEAM.
Showroom Manager	Showroom operations; stock; finance; insurance; RTO; accessories; delivery; staff; targets; approvals.	Pass	Pass	Pass	Pass	Dedicated Accessories module and PDI checklist screens missing; other operational cases present.	Medium	Routes: /showroom-manager/dashboard, showroom-leads, sales-teams, targets, approvals. ONE_BRANCH.
GM Sales Executive	Sales dashboards; targets; conversions; sources; team performance; booking pipeline; ageing; department status.	Pass	Pass	Pass	Pass	None. High-volume (>100k leads) scope query optimizations applied.	None	Routes: /gm-sales/dashboard, sales-leads, showroom-comparison, consultant-ranking, targets. ALL_BRANCHES.
Business Owner	Business-wide dashboards; showroom performance; conversion; revenue reports; stock; audit.	Pass	Pass	Pass	Pass	None.	None	Routes: /business-owner/dashboard, sales-overview, showroom-performance, operations, credits. Decoupled overview. TOTP MFA.
Inventory Manager	Stock, VIN, yard/location, allocation, availability and readiness; vehicle colour selection.	Pass	Pass	Pass	Pass	Private vehicle photo gallery upload deferred post-release.	Low	Routes: /inventory/dashboard, vehicle-inventory, stock-allocation, stock-ageing, stock-transfer. Colour catalog. Unmasked VIN.
Used Car / Exchange	Exchange requests, inspection, valuation, approval and final status.	Pass	Pass	Pass	Pass	Inspection photo uploads and RC copy scans deferred post-release.	Low	Handled in OperationalCaseWorkspace (department="EXCHANGE"). Valuation and inspection workflow.
Finance Manager	Loan documents, application, sanction/rejection, disbursement and clearance.	Pass	Pass	Pass	Pass	None.	None	Handled in OperationalCaseWorkspace (department="FINANCE"). Checklist & disbursement tracking.
Insurance Manager	Insurance quote, payment, policy generation and readiness.	Pass	Pass	Pass	Pass	Direct aggregator API integration not present (manual quote comparison).	Low	Handled in OperationalCaseWorkspace (department="INSURANCE"). Policy storage in Tigris S3.
RTO Manager	Registration documents, application, payment, progress and registration number.	Pass	Pass	Pass	Pass	Direct government Vahan portal API not present (manual stage updates).	Low	Handled in OperationalCaseWorkspace (department="RTO"). Full registration lifecycle.
Accessories Manager	Accessory selection, stock, installation, payment and completion.	Missing	Missing	Missing	Missing	Accessories management workspace does not exist. Only exists as quotation price line items.	High	Major missing department module in current codebase. Preconditions checked in delivery case.
Delivery Coordinator	Booking, payment, finance, insurance, RTO, accessories, PDI and final handover readiness.	Pass	Pass	Pass	Pass	PDI inspection checklist and accessories installation readiness check not independent sub-modules.	Medium	Handled in OperationalCaseWorkspace (department="DELIVERY") & DeliveryFeedbackWorkspace.
Customer Care / CRM	Feedback, ratings, complaints, escalation and Google review requests.	Pass	Pass	Pass	Pass	None. Automatic complaint routing from low feedback & public feedback form active.	None	Routes: /customer-care/dashboard, customer-cases, feedback, reviews, complaints-escalations. Sentiment routing.
Client Admin	Sources, stages, mandatory fields, templates, drip campaigns, alerts, mappings, vehicle masters and reports configuration.	Pass	Pass	Pass	Pass	Fixed core stages cannot be renamed. (Vehicle Models, Variants, Colours & Specs now fully configurable via UI).	Low	Cockpit: branches, teams, users, roles-permissions, crm-configuration, custom-fields, master-data, integrations.
Super Admin	All modules, users, roles, branches, permissions, integrations, security, backup, audit, templates, automation.	Pass	Pass	Pass	Pass	In-app database backup trigger and restore UI missing (handled via cloud infrastructure/CLI).	Low	Control plane: dealerships, onboarding-reviews, plans-features, modules-entitlements, credits, health, TeleCMI provisioning.

End-to-end journey: Lead -> Follow-up -> Test Drive -> Quotation -> Used Car / Finance -> Booking -> Stock -> Payment -> Insurance -> Accessories -> RTO -> PDI -> Delivery -> Customer Feedback -> Google Review.

Global master-data test: Model / Variant / Colour / Specification changes are tested across dependent screens. Deactivation preserves historical denormalized records without data corruption.

Bug severity: Critical = core business/security/data integrity blocker; High = major workflow unavailable/incorrect; Medium = important defect with workaround; Low = minor/cosmetic.
